Anticoagulation, hemorrhagic cardiac tamponade complicating the postmyocardial infarction syndrome in absence of, 770
Aorta and major branches, lesions of, surgical correction of coronary arterial disease associated with, 402
Aortocoronary bypass, classification and results, 381
Arrhythmias in coronary-care unit, physiologic bases of paroxysmal bradycardia-dependent A-V block, 795
of ectopic beats, 620
physiologic bases of paroxysmal tachycardia-dependent A-V block, 964
monitoring system, clinical evaluation of new computerized, 241
Arteries, coronary, gas endarterectomy with distal bypass of, 397
Arteriography, coronary, and left-heart studies, 85
Asthma, cromolyn sodium, new approach to treatment of, 415
Atrial escape, sinus bradycardia leading to, 791
A-V block, 2:1 retrograde, sinus bradycardia complicated by extrasystolic ventricular tachycardia with, 963
due to acute myocardial infarction and chronic conduction system disease, comparison of, 430
paroxysmal bradycardia-dependent, physiologic bases of, arrhythmias in the coronary-care unit, 795
physiologic bases of paroxysmal tachycardia-dependent, arrhythmias in the coronary-care unit, 964
junction, ailing, 909
nodal escape with 2:1 retrograde A-V block, sinus bradycardia and, 618

B

Balloon counterpulsation, intra-aortic, in management of cardiogenic shock, use of, 211
Behavioral problems of critical-care patients, systems approach in assessing, 593
Bigeminy, pacemaker: pseudomalfunction, 927
Biopsy, renal, clinical aspects of, 900
transvenous intracardiac, using new catheter forceps, 69
Block, 2:1 A-V retrograde, sinus bradycardia and A-V nodal escape with, 618
right bundle branch, phasic aberrant ventricular conduction manifesting as, with left anterior hemiblock, 441
Bradycardia, sinus, and A-V nodal escape with 2:1 retrograde A-V block, 618
complicated by extrasystolic ventricular tachycardia with 2:1 retrograde A-V block, 963
leading to atrial escape, 791
Bypass, aortocoronary, classification and results, 381
cardiopulmonary, visual inspection of patient with, 421

C

Cardiac monitoring, newer techniques in, 568
Cardiac pacemakers, indications and complications, 444
pacemakers in the management of reciprocating tachycardias, 128
resuscitation in the Eighteenth century, 46
tamponade, hemorrhagic, complicating postmyocardial infarction syndrome in absence of anticoagulation, 770
Cardiogenic shock, use of intra-aortic balloon counterpulsation in management of, 211
Cardiopulmonary bypass, visual inspection of patient with, 421
disease, dyspnea in patient with, 599
patient with, signs, symptoms, assessment and intervention, 420
Carotid sinus pressure, idionodal tachycardia "unmasked" by, 789
Catheter forceps, transvenous intracardiac biopsy using new, 69
Chest pain, 956
Coma, hepatic, case for intensive care in, 775
Conduction system disease, chronic, comparison of A-V block due to acute myocardial infarction and, 430
COPD patient, acute exacerbation of dyspnea in, 124
home oxygen therapy for, 792
Coronary arterial disease associated with lesions of the aorta and its major branches, surgical correction of, 402
surgery, brief history for, 369
arteries, gas endarterectomy with distal bypass of, 397
arteriography and left-heart studies, 85
artery disease, symposium on surgery for, 367
care, continuing evaluation of, 227
family conferences as adjunct to total, 767
unit and intensive-care unit, as patient views, 260
arrhythmias in, physiologic bases of ectopic beats, 620
arrhythmias in the, physiologic bases of paroxysmal tachycardia-dependent A-V block, 964
physiologic bases of paroxysmal bradycardia-dependent A-V block, 795
mortality of myocardial infarction treated in, 215

*January-February, pp. 1-162; March-April, pp. 163-318; May-June, pp. 319-494; July-August, pp. 495-642; September-October, pp. 643-816; November-December, pp. 817-994.

Coronary-Cont'd
psychosocial influences on heart rhythm in, 746
stress on nurse and therapist in intensive-care unit and, 252
disease, some aspects of, 44
Counterpulsation, intra-aortic balloon, in management of cardiogenic shock, use of, 211
Critical care, renal disease and, 871
Cromolyn sodium, new approach to treatment of asthma, 415

D

Dialysis—current status and future trends, 879
renal, nursing implications in prevention of complications in, 890
Digitalis-induced accelerated idioventricular rhythms, 104
therapy after acute myocardial infarction, 99
Drowning, near, 946
Dyspnea, acute exacerbation of in COPD patient, 124
in patient with cardiopulmonary disease, 599

E

Ectopic beats, physiologic bases of, arrhythmias in the coronary-care unit, 620
Ectopic beats, ventricular, in Lead V_1, electrocardiographic recognition of, a preliminary report, 921
Editorial, 209
Editors, letters to the, 134, 463, 620, 802, 972
Electrocardiogram monitoring, indications and techniques for ambulatory, 540
Electrolyte and fluid management, review of current concepts in, 115
Endarterectomy, gas, with distal bypass of coronary arteries, 397
Energy metabolism in shock, 615

F

Fluid and electrolyte management, review of current concepts in, 115
management in the critically ill, Starling curves as a guide to, 588
Forceps, catheter, transvenous intracardiac biopsy using new, 69

G

Gas endarterectomy with distal bypass of coronary arteries, 397

H

Heart attack, acute, events surrounding, community aspects of unstable angina and acute heart attack, 50
metabolic response to, 57
rhythm in coronary-care unit, psychosocial influences on, 746
Hemiblock, left anterior, phasic aberrant ventricular conduction manifesting as right bundle branch block with, 441
Hemodialysis, some aspects of the nursing care for patients on, 885
Hepatic coma, case for intensive care in, 775
Hypotensive patient and the patient in shock, medical approach to the, 577

I

Idionodal tachycardia "unmasked" by carotid sinus pressure, 789
Idioventricular rhythms, accelerated, digitalis induced, 104
Infarction, myocardial, acute, and chronic conduction system disease, comparison of A-V block due to, 430
digitalis therapy after, 99
vasodilator therapy in, 939
anticoagulant therapy in, 61
emotional and behavioral reaction to, 738
emotional response and clinical severity as early determinants of six-month mortality after, 730
mortality of, treated in coronary-care unit, 215
prognosis in, 75
survival factors following, recorded by nurse, 233
postmyocardial, patients, teaching evaluation questionnaire on, 759
syndrome, in absence of anticoagulation, hemorrhagic cardiac tamponade complicating, 770
Intensive-care unit and coronary-care unit, as patient views, 260
stress on nurse and therapist in coronary-care unit and, 252
Intra-aortic balloon counterpulsation in management of cardiogenic shock, use of, 211
Intracardiac biopsy, transvenous, using a new catheter forceps, 69
Ischemic heart disease, role of ambulatory real-time monitoring in, 562

L

Lead V_1, electrocardiographic recognition of ventricular ectopic beats, a preliminary report, 921
Left-heart studies, coronary arteriography and, 85

M

Medical writing, flexibility in, 42
Metabolism, energy, in shock, 615
Monitoring, ambulatory, a 1975 overview, 537
electrocardiographic, observations on, in clinical practice, 546
real-time, role of, in ischemic heart disease, 562
cardiac, newer techniques in, 568
indications and techniques for ambulatory electrocardiogram, 540
postoperative, following critical trauma, 269
role of ambulatory, in postinfarction patients, 555
Myocardial infarction, acute, and chronic conduction system disease, comparison of A-V block due to, 430
vasodilator therapy in, 939
digitalis therapy after, 99
anticoagulant therapy in, 61
emotional and behavioral reaction to, 738
response and clinical severity as early determinants of six-month mortality after, 730
mortality of, treated in coronary-care unit, 215
prognosis in, 75
survival factors following recorded by nurse, 233

N

Nurse editor, new, 41

O

Overload, left ventricular, electrocardiographic features of, 284
Oxygen, home, therapy for COPD patient, 792

P

Pacemaker bigeminy: pseudomalfunction, 927
  cardiac, complications of pacing, 286
    indications and complications, 444
    pacemakers in the management of reciprocating tachycardias, 128
Pacing, complications of, cardiac pacemakers, 286
Peritonitis, old and new thoughts, 456
Pneumonitis, radiation, producing respiratory failure, 452
Postcardiotomy psychosis, indications and interventions, 724
Postmyocardial infarction patients, teaching evaluation questionnaire on, 759
Postoperative monitoring following critical trauma, 269
Pre-infarction syndrome, surgical indications, 390
Preoperative evaluation, patient selection and, 373
Psychosis, postcardiotomy, indications and interventions, 724
Psychosocial influences on heart rhythm in coronary-care unit, 746

R

Renal biopsy, clinical aspects of, 900
  dialysis, nursing implications in prevention of complications in, 890
  disease and critical care, 871
  failure, acute, 873
  transplantation, 894
Respiratory distress syndrome, adult, 280
  failure, radiation pneumonitis producing, 452
Resuscitation, cardiac, in the Eighteenth century, 46
Revascularization surgery, limitations of emergency, 869
Rhythms, idioventricular, accelerated, digitalis-induced, 104
Right bundle branch block, phasic aberrant ventricular conduction manifesting as, with left anterior hemiblock, 441

S

Shock, energy metabolism in, 615
  patient in, medical approach to the hypotensive patient and the, 577
Sinus bradycardia and A-V nodal escape with 2:1 retrograde A-V block, 618
    complicated by extrasystolic ventricular tachycardia with 2:1 retrograde A-V block, 963
  leading to atrial escape, 791
Starling curves as a guide to fluid management in critically ill, 588
Stress on nurse and therapist in intensive-care unit and coronary-care unit, 252
Syndrome, pre-infarction, surgical indications, 390
  respiratory distress, adult, 280

T

Tachycardias, cardiac pacemakers, pacemakers in the management of reciprocating, 128
  idionodal, "unmasked" by carotid sinus pressure, 789
  ventricular, extrasystolic, with 2:1 retrograde A-V block, sinus bradycardia complicated by, 963
Tamponade, hemorrhagic cardiac, complicating postmyocardial infarction syndrome in absence of anticoagulation, 770
Transplantation, renal, 894
Transvenous intracardiac biopsy using a new catheter forceps, 69
Trauma, critical, postoperative monitoring following, 269

V

Vasodilator therapy in acute myocardial infarction, 939
Vectorcardiography, general concepts, 697
Ventricular conduction, phasic aberrant, manifesting as right bundle branch block with left anterior hemiblock, 441
  ectopic beats in Lead V_1, electrocardiographic recognition of, a preliminary report, 921
  fusion, study in, 122
